EXPERIENCE

- ❖ **Full Stack Developer | NotesEra , Indore** *(Aug 23 - Oct 23)*
Contributed significantly to the development of both frontend and backend tasks within the web application, using the MERN stack. Successfully designed and implemented a user-friendly dashboard while incorporating additional features to enhance overall functionality. The application currently attracts a daily traffic of 1000 users.
- ❖ **Frontend Intern | UltraExpert , Indore** *(march 23 - april 23)*
Developed and designed a responsive dashboard and UI components and authentication system using React, with a focus on ensuring the extensibility and manageability of the application.
- ❖ **Volunteer | MUACM** *(Nov 21 - sept 22)*
Worked as technical member to contribute in website related designing, building and managing. Plus handling the deployment level of tasks of application using deployment platforms like netlify using github.
- ❖ **Internship Training | Edureka** *(June 21 - Sept 21)*
Participated in a comprehensive Full Stack Training & Internship Program, during which I successfully built a complete application akin to Zomato using the MERN Stack. Under the guidance of our mentor, I not only developed the core project but also undertook additional projects, showcasing a well-rounded skill set in full-stack development.

EDUCATION

- ❖ BTech in Computer Science | Medi-caps University ,Indore *(sept 21 - may 25)*
- ❖ XII (CBSE) | Alpine Academy, Indore 94.4% | 2021
- ❖ X (CBSE) | Rajeshwar Higher Secondary School 88.8% | 2019

PROJECTS

- ❖ **FlavourFusion - Application for food ordering**
Participated in an immersive Full Stack Training & Internship Program, successfully creating a Zomato-like application using the MERN Stack. Under mentor guidance, not only did I develop the core project, but also executed additional initiatives, demonstrating a versatile skill set in full-stack development. Additionally, I constructed the backend using MVC architecture, acquiring expertise in building REST APIs, establishing database connections, and utilising browser storage.

❖ **Amar Shanti - A Hotel Booking website**

I independently worked on a live project, handling everything from design to deployment with continuous integration and continuous development using github and netlify. The complete software includes both user and admin panels, and it was built using the technologies like reactjs , nodejs and mongodb.

SKILLS

- ❖ Collaborative Team Player
- ❖ Demonstrated Leadership Skills
- ❖ Proficient in Programming Languages: Python, JavaScript, C/C++
- ❖ Frontend Technologies: React.js, HTML, CSS, Bootstrap
- ❖ Backend Technologies: Flask, Node.js
- ❖ Database Management: MySQL, MongoDB
- ❖ Familiarity with NPM Ecosystem: Express, Axios, React-form-hook
- ❖ Experience with Python Libraries: NumPy, Pandas, Matplotlib, scikit-learn, pymysql, etc.

ACHIEVEMENTS & CERTIFICATES

- ❖ Completed Open Source Hacktober Challenge consecutively for 3 Years.
- ❖ Awarded as Super Intern during my Edureka Internship program.
- ❖ Foundation of Project Management by Google.
- ❖ Google cloud Fundamentals : Core infrastructure.
- ❖ Certified Full Stack developer.
